

## Release Notes 7.17.0

---

*August 2019*

## 1. Release Improvements

Item	Improvement	Component
1	When previewing Outbound calls, the campaign name is now presented before dialing.	CTI Adaptor
2	Introduced the ability to skip phone validation on “Phone Number” transfer option.	Agent Toolbar
3	Improved Salesforce integration when creating and updating tasks.	Salesforce CTI Integration

## 2. Bug fixes

Item	Bug Fix	Component
1	Fixed an issue where the lead count against the Dynamic CLI in the Campaign settings does not match the Lead count in the Leads module.	Workspace
2	Fixed an issue where data from the Live Reports were inconsistent with the results from the “readCallsList” API endpoint.	Live Reports API

*Plus various bugfixes and other minor improvements.*
